By the end of this document, you will be able to:

- ☐ Ensure privacy and confidentiality on patient Electronic Medical Record (EMR)
- ☐ Differentiate Outpatient and Inpatient visits
- ☐ Identify the different menu and the panels
- ☐ Know where to find specific clinical information
- ☐ Demonstrate where to find the 'one stop shop' for panel information
- ☐ Illustrate the use of trending and graphing information
- ☐ Assess knowledge by defining or paraphrasing items on the menu

Protecting Patient Privacy

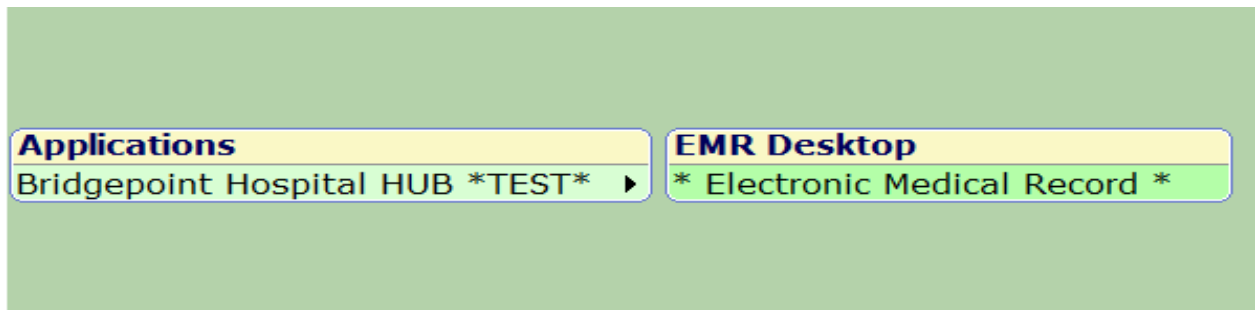

Safeguarding patient health information (PHI) is more than simply keeping it under lock and key. It is also about appropriate collection, use, disclosure and when the information is no longer required, its secure disposal. (*eHealth Ontario*)

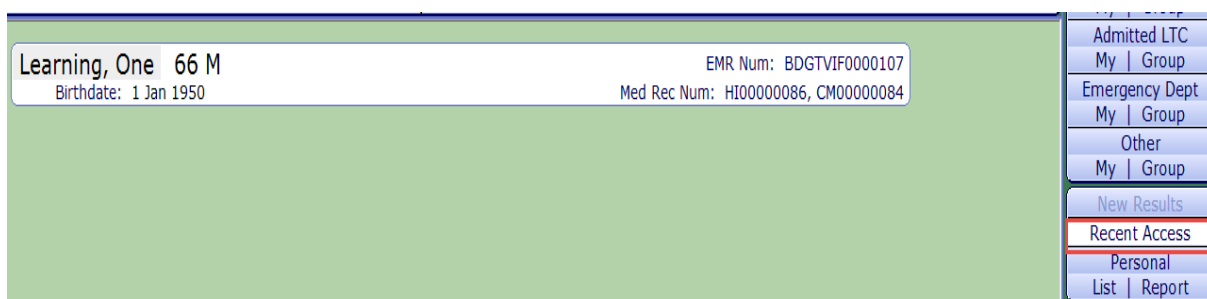

- In accordance with privacy legislation you must only access documentation for patients/clients within your circle of care
- Health Records performs periodic audits to help ensure patient privacy
- You must ensure you are logged off if you leave the computer for any length of time
- Be mindful of other eyes (visitors, staff outside the circle of care) who may be able to see the EMR
- Be mindful of policies relating to printing the EMR. These are available on the Bridgepoint Portal

Electronic Medical Record (EMR)

The Electronic Medical Record (EMR) is used to view patient records and electronic documentation.

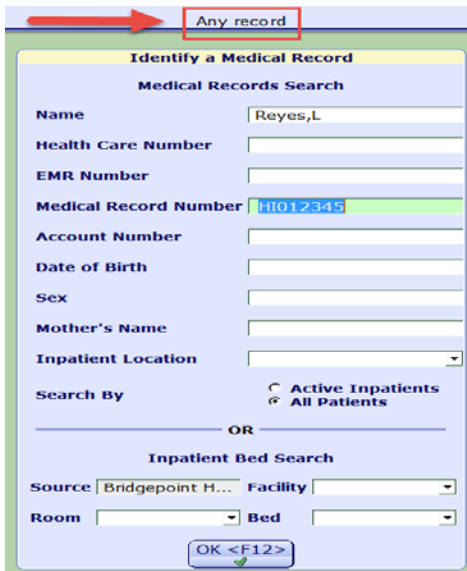

After selecting Electronic Medical Record from the Applications, the Recently Accessed Records window will load if there is recent access done on any record.

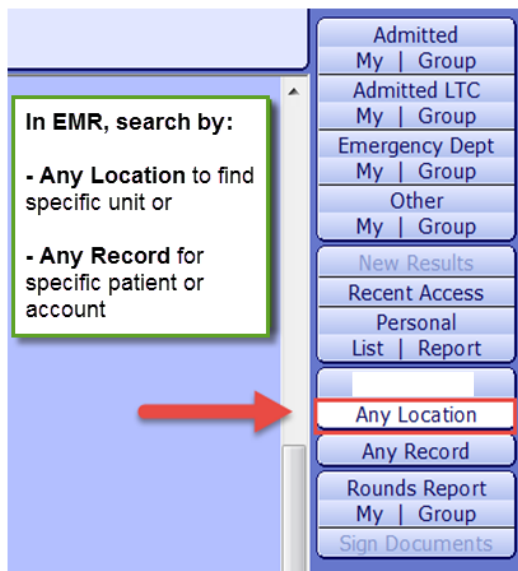

If no 'Recently Accessed Records' – Go to Any Location on the menu, Select Bridgepoint Hospital facility and search by specific Unit for **Any Location** or **Any Record**.

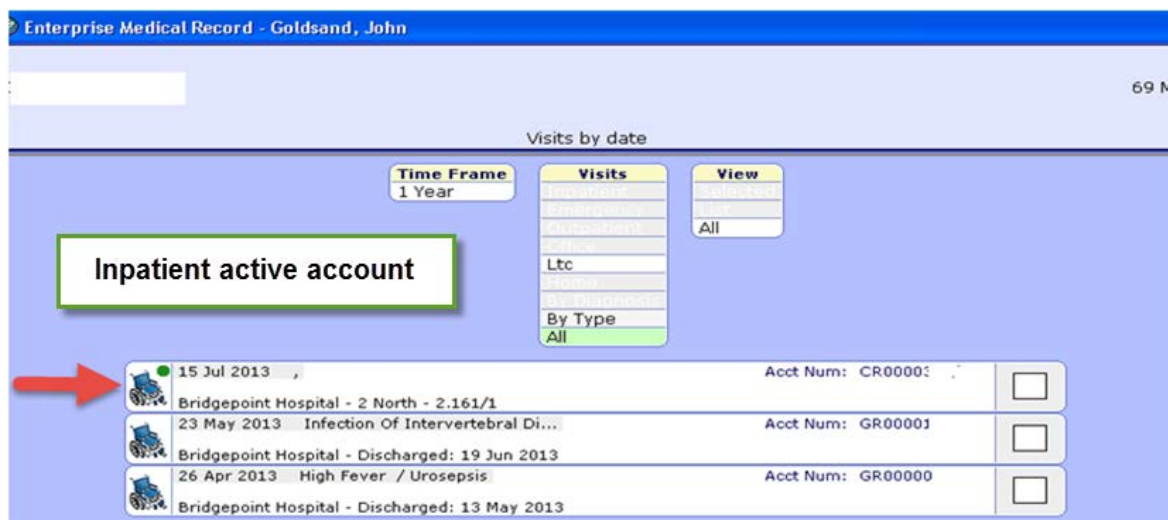

In EMR, search by:

- Any Location to find specific unit or
- Any Record for specific patient or account

After selecting a patient from the Record List, the Visits by Date screen will appear. This screen contains a list of visits by the selected patient. Each visit will begin with the admission date. Current visits will show the location of the patient and will be marked with a green dot. Inpatient accounts will be shown with **'Wheelchair'** icon and Outpatient Accounts will be shown with **'Clipboard'** icon. Previous visits without the green dot will show the discharged date.

Outpatient visits

Visits By Date

The new visit selection screen will consist of three tables at the top: Time Frame, Visits, and View.

Time Frame
1 Year
2 Years
3 Years
5 Years
7 Years
10 Years

Only appropriate time frames will display. For example, if the patient does not have any visits over 5 years, then 7 Years and 10 Years will not display in the table.

Visits
Inpatient
Emergency
Outpatient (CLI, REF, RCR, SDC)
Office (POV, PPR)
Home (Home health visits)
By Diagnosis

Only appropriate visit types will be illuminated. If a patient does not have any visits of a particular type then that button will be low-lit.

View
Selected
All

The view table will default to ALL. The 75 most recent visits for the selected record. These visits appear in reverse chronological order by visit

Record List	Return to the previous list of records
Return	Not applicable button is low-lit
Summary List	Allows view of the Patient Summary
Allergies	Opens the Allergies Management Screen, where allergies and adverse reactions may be viewed
View PCI	Not applicable button is low-lit
Moved to Other Records	Not applicable button is low-lit
Add to Personal List	Add the patient to your Personal List of records
Remove From Recently Accessed List	Remove patient from the list of Recently Accessed Records
Sign Up	Not applicable button is low-lit
View Converted Charts	Not applicable button is low-lit

Summary Panel

This panel contains general information about an account and the selected visit that is grouped in sub-panels.

- Default EMR panel to EMR viewers not designated in Special Panels group
- Allows view of the Patient Summary

Custom Special Panels

Custom special panels are user-defined panels that can serve as central location to view a wide range of data normally found on several different panels. These panels appear on the Special Panel list in EMR by a unique display name defined for the custom special panel (ex. Neuro-Rehab Panel, Medical-Rehab Panel and Ortho-Rehab Panel)

24 Hour

This panel displays vital signs, intake and output information, laboratory results and diagnostic reports.

The buttons at the top of the screen let you select the current day or one of the preceding four days for which to view data. Each day you view the panel, the weekday button labels change, so that the last five days always appear.

Notes and Interventions

The Notes menu option contains a group of panels that provide access to the notes by care providers. The Panel selection buttons allow you to select the notes you want to view. The list included a maximum of 50 signed notes. Use the **Earlier** and the **Later** buttons to view additional groups of 50 notes.

After selecting a patient visit from list, the EMR patient record will load. To view interventions in the EMR, click the Notes button from the side menu.

25/11/13 13:34	History & Physical		John Goldsand MD	25/11/13 12:30	Draft		

Click 'Type' to sort by intervention name.

EMR initially sorts the notes by date and time in reverse chronological order (the most recent note is at the top of the panel). To change the sort order, click the column header by which you want to sort the notes (for example, User). EMR then sorts the notes by alphabetical order, and then by date and time.

Depending on the type of sort, **Earlier** and **Later** or **Next Page** and **Prev Page** buttons appear under selection buttons. If the sort was by date and time, the **Earlier** and **Later** buttons appear. For all other sorts, the **Next Page** and **Prev Page** buttons appear.

To view an Intervention, click the blue 'i' icon

Documented By: **Documentation Date:**

The Meditech Document Viewer contains a header and a footer menu. The header menu has the following options:

	Copy the selected text
	Select all text in the documentation
	Search for a word or phrase in the documentation
	Print the documentation (the best option to print with proper formatting)

The footer menu has the following options:

	Return to the Notes Panel
	Print the documentation in plain text without formatting (Not recommended)
	Used to navigate to other documentation entries
	Print a screen shot of the Meditech Window (Not recommended)
	Lock or suspend your Meditech session. You must enter your Meditech password again to unlock.

Click on Laboratory and Microbiology tabs on the Menu to look at results

- Results can be trended per visit
- Click on Lifetime Summary to view the results on all visits

Lifetime Summary

When you select the Lifetime Summary option, the system initially displays the most recent information for any items entered over the lifetime of the patient visit. However, you can also view a complete history of all items entered over a specified timeframe by clicking the item of interest. Upon clicking an item, a history screen displays all items entered within a 6 month timeframe.

Other Reports

You will find **all the Physician documentations** in this menu. This contains the various reports sent to EMR from other Meditech modules. To view the associated report, click this comment bubble icon .

From the EMR, Click the "Other Reports" button and click the "All Reports" tab

The screenshot shows the 'Other Reports' panel in the EMR system. At the top, there are tabs for 'Selected Visit' and 'Lifetime Summary'. Below these are buttons for various report categories: Medical/Surgical, Long Term, Behavioral, Rehabilitation, All Reports (highlighted with a red arrow and number 2), HEENT, Nervous System, Cardiopulmonary, GI/GU/GYN, Nutrition, Psychosocial, Rehab Therapies, Musculoskeletal, Equipment, Team/Discharge, and Misc Reports. A table of reports is displayed below, with columns for Date, Report ▲, Dictated By, Dictated Date/Time, Status, Report (with comment bubble icons), and Hx. A red circle highlights the first two rows of the table. On the right side, there is a sidebar with a list of panels: Special Panels, 24 Hour, Vital Signs, I & O, Notes, Medications, Order History, Laboratory, Microbiology, Blood Bank, Pathology, Imaging, Other Reports (highlighted with a red arrow and number 1), and Care Trends. A red arrow and number 3 points to the report table.

Menu Definition

<div>Admitted My Group Cover</div>	Used for acute care facilities only.
<div>Admitted LTC My Group Cover</div>	List records associated to you, your provider group, or for coverage providers.
<div>Admitted My Group Cover</div>	Used for acute care facilities only.
<div>Other My Group</div>	List records that are not found in the Admitting Department (ex. Day Treatment).
<div>New Results</div>	Displays new, unviewed completed results.
<div>Recent Access</div>	List records that you have viewed in the last 14 days. The most recently viewed record appears at the top.
<div>Personal List Report</div>	List records that you have added to your personal list. This personal list is the same as PCS My List.
<div>Any Location</div>	List patients in a specific location.
<div>Any Record</div>	List patients using the search tool.
<div>Rounds Report My Group Cover</div>	View /Print EMR Reports for all records associated to you, your provider group, or coverage providers.
<div>Sign Documents</div>	Sign documents and orders electronically

The General Function Buttons

This function bar displays a row of buttons in the lower right corner. The Reference or Globe icon is used to access the 'external links' attached per user. For example, Patient Results Online (PRO) or College of Nurses of Ontario (CNO).

Button					
Name	Reference	Print Screen	Suspend	Help	E-Mail
Function	Accesses user-specific external links defined in MIS User Dictionary	Prints a hard copy of this screen or allows you to Print EMR Reports	Locks the screen so users must re-enter a password to continue the session (The session may be also be automatically suspended after a pre-defined interval.)	Launches context-specific Help files	allows users to access their personal MT (ICS) E-mail

EMR Colour Coding

Letter Colour	Location	Meaning
Grey Letters	Option buttons, view buttons	No information documented, and/or user does not have access to this option.
Blue Letters	Option buttons, view buttons	Previously viewed information exists and user has access
Red Letters	1. Option buttons in mainframe and data frame, names of assessments/interventions in Care Activity and Care Trends. 2. Header, menu or data frames	1. New information exists to which user has access 2. Resuscitation status New information entered
White Background	Option buttons	User is in the option
Yellow Background	Several areas including Results panels, Vital Signs, I&O, 24 hour panel, Care Trends, Care Activity.	Abnormal results. H or L indicates if result is abnormally high or low
